

Circuit Protection Devices

Metal Oxide Varistors

Varistor MOV : Fast response to rapidly rising surge voltage
High performance clamping voltage characteristics
Broad product range
Varistor voltage: 18V to 1800V UL E222955, E197475

Thermal MOV: Integrated thermal element to protect overheated MOV
Low leakage current and high surge current
-55°C to 85°C operating temperature range UL E222955
